

VIII International Conference on Ultrafast Optical Science

UltrafastLight-2024

Lebedev Physical Institute (LPI), Moscow, Russia 30 September- 02 October, 2024

Conference website: www.ultrafastlight.ru
Conference e-mail: ultrafastlight@lebedev.ru

Conference scope:

- Ultra-intense electromagnetic fields, strong-field phenomena and nuclear photonics
- Ultrafast processes in ionized gases
- Ultrafast dynamics in condensed matter
- Ultrafast laser technologies in microoptics, nanophotonics and structured light
- Ultrafast diamond photonics
- Femtosecond radiation in spectroscopy and optical frequency metrology
- Ultrafast optical technologies and nonlinear optical phenomena
- Ultrafast laser technologies in biomedicine

The participation in conference is free.

30 June 30 August 30 September

Abstract Paper Conference submission acceptance opening deadline notification

Each day of the conference starts with the plenary session. Following sessions consist of invited talks (25 min), contributed oral talks (15 min) and flash talks (3 slides/5 min) as a poster presentation announcements. There is also an option to register as a listener without submitting a talk.

Chair Nikolay Kolachevsky (LPI)

Vice Chair Andrey Ionin (LPI)

Vice Chair Sergey Kudryashov (LPI)
